CHITEEN LITFEST Review- By Amaris Delgado.

"If I had to rate the *ChiteenLitfest* out of 10 I would definitely give it a 10 and a half! I loved this event so much. I was so excited and pumped for it when I heard they were throwing it again in 2017. Since I first started attending Ogden as a freshman, I first heard of the ChiteenLitfest. It was like a teenager's dream; just my version of it. Sadly that year I was not able to go. But getting to go this year was a dream come true and an awesome thing that I got to do without my parents. I suggest it to the students. Honestly, even though it sounded big I didn't think there were people out there just like me who were pumped for this. When I got there it was packed with so many different kids. I even got past my shyness and made some friends! We bonded over some of our favorite speakers and favorite books which were so much fun and inspiring. The authors who were actually on the floor talking to us, gave us hope that if I tried hard enough, I could be a good enough author too. I hope others who hopefully got to attend feel the same way!"
